## PROFILE

Currently pursuing a professional bachelor's in web development with a strong foundation in both front and backend development. My journey began with multimedia design, giving me a unique eye for both form and function. I've built real-world skills through internships and freelance work, especially in HTML, CSS, JavaScript, and React. I'm passionate about building clean, responsive websites and apps that create meaningful user experiences. I'm ready to bring energy, curiosity, and creativity to a dev team where I can continue growing professionally.

---

## EDUCATION

PBA in Web Development — Business Academy Aarhus (2024–2026, Current)

AP Degree in Multimedia Design — Business Academy Aarhus (2022–2024)

JavaScript Course — IBA Business Academy Kolding (2019)

Webintegrator — Syddansk Erhvervsskole Odense (2015–2017)

---

## EXPERIENCE

### **Freelance HubSpot CMS Developer | WakeupData (Jan 2024 – Aug 2024)**

Created custom modules and templates in HubSpot CMS to extend marketing capabilities. Collaborated with the marketing team to deliver flexible and scalable content tools.

### **HubSpot CMS Developer Intern | WakeupData (Aug 2023 – Jan 2024)**

Developed dynamic modules and templates, giving the marketing department more creative control. Gained hands-on experience working with cross-functional teams and real-world CMS development.

### **Backend Developer Intern | sima.DK (Sep 2018 – Oct 2018)**

Built a C# application to import large-scale CSV data into MSSQL. Also worked on CRUD functionality and backend data processes.

### **Various Jobs (2012 – 2020)**

- Bilka Kolonialafdeling – Kolding
- Hansen Seest – Kolding
- COOP Warehouse – Vejen

---
